NEW WESTMINSTER, SATURDAY, JUNE 20, 1863.

OUR GALLING YOKE.

There are probably few instances in the history of British Colonization where the want of liberal institutions has been so keenly felt as in this Colony. A preponderance of our settlers are from the Eastern Colonies, where they have been accustomed to the exercise of all those glorious rights of self government under the invigorating and benign influence of which those Provinces have rapidly risen into such importance. Men reared under such institutions are not very likely to submit uncomplainingly to be deprived of every vestige of freedom. Having once tasted the sweets of the many art of self government they cannot consent with a very good grace to wear the galling yoke of autocracy—to be mere puppets in the hands of a petty tyrant. Serfdom is galling enough to those who have never experienced what it is to be free men; but to think of reducing those to a state of serfdom who have ripened into mature manhood under the most liberal political system is at once unnatural, impracticable and wicked. Were such men to submit quiescently to the absolute rule of one of their fellows the inevitable result must be a withering of all those aspirations and principles which are ever the fruits of liberal institutions, and a dwarfing of that intellect which it is the design of the great Creator as well as the highest duty of man to cultivate and expand until the created approximates as near as may be to Him who formed it after His own image.

The appointment of Mr. Douglas to govern of his own will and power a Colony of enlightened British subjects was at once a mistake and a wrong. If there is need for the exercise of all those powers and faculties which are the result of liberal institutions it is surely in a new country like this where everything is crude and unformed, where everything has to be hewn out of the native, craggy rock. Far easier would it be for one man to direct, unassisted, the affairs of an older Colony where everything is brought to a state of harmonious working order than to take hold of a new and crude Colony like this where every institution, from the very foundation stone, must be laid and organized.

The enterprising men who came first to this Colony, who navigated its rivers, scaled its mountains and disembellied its rich treasures surely know something about its wants and capabilities, and might be consulted by the Governor with advantage. Our merchants and traders, our mechanics and farmers, every one of them possessed of push and intelligence or they would not be here, are not bad judges of what measures would tend to the extension of our commerce and the development of our resources; they possess far more practical knowledge of what is needed than His Excellency can acquire while lolling in indolence at his Island retreat. And had the course recommended by Sir E. B. Lytton, in his instructions to the Governor, been carried into effect, had His Excellency called together such men from amongst the colonists as would possess the confidence of the people and formed them into a council of advisers, how very different would the state of affairs be to-day.

But no. As the miser nervously clutches his hoarded gold so did Mr. Douglas grasp the absolute power with which, in an evil hour, he was invested; and not for a single moment has he slackened his eager grasp. Down to the most minute details he holds every string, hangs on with a convulsive grip to every tape, until that respect which every Briton would cherish for the representative of their beloved Queen has sickened if not entirely died out. He is permitted to come and go without the slightest attention on the part of the people. It is true a gun is fired upon the occasion of his arrival at or departure from the town of Yale; but that is done by the Stipendiary Magistrate, and paid for out of our revenue, so that the only salute he receives in the Colony is by his order, and at the expense of the Exchequer! What a pitiful sight; what a humiliating reflection.

Probably no man ever possessed so favorable an opportunity as has His Excellency to become a popular Governor. Every allowance would have been made for his inexperience, every leniency shown him on account of the disadvantages under which he had to labor, had he evinced a sincere desire to promote the interests of this Colony and encourage those brave pioneers who penetrated dingle and swamp in order to find a home for themselves and families. But as it is he has sacrificed the interests of a whole Colony to his own aggrandisement, while his great study

has been how he could make this Colony subserve the interests of the "family compact" at Victoria; so that instead of having his name become a cherished household word to be handed down to succeeding generations with affectionate veneration it has become a bye-word and a scorn among the people, who pray as fervently to be freed from his insulting despotism as ever did Israelite for deliverance from Egyptian bondage.

NEW WESTMINSTER, SATURDAY, JUNE 20, 1863.

UNION AND PEACE—DISUNION AND TUMULT.

Such is the heading to an article in the Victoria Chronicle of the 13th inst., under which he not only falls headlong into the very blunder he attempts wrongfully to fasten upon us, but distorts and falsifies our writings upon various subjects. The aphoristic heading is in his hands like the hatchet in the hands of the little boy who chopped down his father's apple-trees. He would argue that because union is productive of peace therefore a union of these Colonies would lead to that result. While admitting that in union there is strength and peace as applied to any one country, colony or community, we must decline to admit the proposition of our contemporary that the same principle applies to a union of two or more countries, colonies or communities. Indeed it is too well known that the very contrary is often the fact, and we feel assured that of these Colonies, if unhappily consummated, would afford a striking illustration of the truth of this.

This subject is suddenly dropped, and the assertion is made that the Governor in establishing the Gold Escort yielded to the repeatedly expressed opinion of every man of influence in the two Colonies out of New Westminster. It would be very difficult to conceive of a more reckless and untruthful assertion than this. The only thing that can be construed into a request from this Colony for the establishment of an Escort is the illegitimate petition in the breeches pocket of "Wharf Street," and even it never reached His Excellency. But we desire particularly to call attention to the fact that that document, so far from expressing a desire for an Escort similar to the one just established, by implication condemns it. We admit that there are some in this Colony, but they are by no means very numerous, who are in favor of a Government Escort with a guarantee for the delivery of treasure. But these very men unanimously condemn an Escort without such guarantee as perfectly useless—just equivalent to throwing away so much money. Why does not our contemporary deal honestly upon this subject? If he is at all acquainted with public feeling in this Colony he must be aware of the untruthfulness of his assertion, and if unacquainted with it, which we suspect to be the case, he should have the honesty to acknowledge his ignorance upon the subject.

The fact is the miners are no fools. They reason philosophically, and very naturally arrive at the conclusion that without a Government guarantee against loss their treasure is safer in their own hands than with those who, being in no way responsible for its loss, could be actuated by no very strong motive in risking life and limb in defending it. Indeed there is no security against one or more members of the Escort itself turning around and robbing the treasure bags. We would not have it implied that we assume any member of it to be capable of such an act. But business is business; and when a man entrusts his treasure to a mere stranger he is surely entitled to some sort of security beyond the man's presumed honesty. As the present Escort stands there is not a shadow of responsibility about it. The men composing it are, to a great extent, mere adventurers picked up in Victoria, and in no way responsible for the safety of treasure committed to their charge beyond what may be implied in that regard which every man is supposed to entertain for his character. And, on the other hand, Government, as we have stated, are entirely screened from responsibility to the depositor by a clause in the Gold Fields' Act under which the Escort is organized. We may be permitted, while upon this subject, to relate an incident as illustrative of the utter looseness and unreliability of such organizations as the one to which we allude: While at Williams Lake on their first trip down with treasure the memorable Escort of '61 got on the spree, and the treasure mule was permitted to stray at will upon the commons all night with the treasure upon its back! It is true the animal was found next morning with the treasure untouched; but who would desire to risk his fortune against such chances.

The matter simply resolves itself into this: The Government of British Columbia decline to give any guarantee for the safety of treasure entrusted to an Escort formed by themselves and under their control, by that very refusal indicating their own want of confidence therein. Under such circumstances it is reasonable to presume that individual miners will be likely to entrust their fortunes—in many instances the result of ears of toil—to strangers selected in another

Colony without the slightest regard to the opinions of the people of this Colony, and over whom they can exercise no control whatever? If Government has not sufficient confidence in an institution of their own creation it is rather cool to ask or expect individual miners and traders to entrust their treasure to it. We have dwelt at such length upon this point that we cannot do more than hastily glance at the remaining ones.

Our Island contemporary next charges us with calling upon Government to obstruct the development of the gold mines in the interest of this town. The passage which he thus distorts and which appears in an article headed "Agriculture" in our impression of the 6th inst., and devoted chiefly to the interests of agriculture in the Upper Country, reads as follows: "We but repeat what we have stated a great many times when we say that every road ought to be located, every law framed, and every act performed with a view to the opening up and permanent settlement of the agricultural lands of this Colony; and that the mines should be worked at such a time and in such a manner as will the most surely and effectually promote the permanent good of the country as a whole. Nay, we would even go farther, and assert that it might become the duty of Government temporarily to obstruct the extraction of the precious metals with a view to the attainment of this great object. In all rich gold countries the mining interests will take care of themselves, and the all important object is so to direct these interests as that they may conduce to those of a more enduring and, in the end, more important character." We have no desire to recall this sentence—no cause to be ashamed of it. We do not, of course, expect those who belong to another Colony, and who only desire to profit as much as possible by our gold mines, without the slightest reference to the permanent interests of this Colony, to coincide with the sentiment. This is but one of the frequent and base attempts made by the press of the neighboring Colony to stigmatize us as the advocate of the local interests of this city without any regard to those of the Colony as a whole.

The last and crowning charge brought against us is that we are inciting the people of this Colony to open resistance, whereas we deprecated such as the probable consequences of the perpetration of such another outrage as the establishment of the Victoria Escort at the expense of this Colony. When a public journalist descends to such undignified and untruthful scurrility as that which characterizes the article under review one is led to the conclusion that either his cause is a very bad one or else that he is deficient in common sense, or, possibly, both.

DISTINGUISHED DEPARTURES FOR CARIBOO.—The Rev. L. Taylor, Agent of the British and Foreign Bible Society, and the Rev. Dr. Evans of Victoria, left this city by the Str. Douglas on Wednesday en route to the mines. The return of these gentlemen may be looked for early in September next, when the former promises to spend a month in and about this city, and will no doubt give us an interesting account of his tour. He gave some encouragement to expect that he would also deliver one or two lectures upon the "Holy Land," a subject upon which he lectured with such great success in the Eastern Colonies after his return from a sojourn in that interesting country. Mr. Taylor is a great traveller and a popular lecturer, and his return will be looked forward to with no small interest.

Important to Business Men in Victoria, California, Portland, and Places on the Sound!

This Journal is the only newspaper published in British Columbia. It is read by every business man from New Westminster to the Rocky Mountains, and is unrivalled as an advertising medium for this Colony. W. F. HARRIS, in Victoria, and T. B. BROWN, in San Francisco, are our authorized Agents.

The British Columbian.

NEW WESTMINSTER, SATURDAY, JUNE 20, 1863.

OUR RELATIONS WITH THE INDIANS.

If it be a fact that what has once been done can, under similar circumstances, be done again, then it is true that the wretched Indians who roam through these forests, fish in our bays and rivers and roll in filth and disease in our streets, are not beyond the reach of hope. Thousands as degraded have been reclaimed, and are now living witnesses of the practicability of the great and noble work which we are urging upon the attention of the Government and people of this Colony. In pursuance of a promise made in the last paper devoted to this subject we now propose to support what we have advanced by adducing a few instances of the wonderful changes wrought amongst the Indians inhabiting the other side of this continent; and for the sake of being at the same time brief and specific we will select one tribe, which will answer our purpose as an illustration of the whole, and whose reformation was to a considerable extent a matter of personal observation.

The St. Clair Indians—a branch of the great Chippewa or Ojibway tribe—live on their reservation adjoining the flourishing town of Sarnia, which now forms the Western Canadian terminus of the two great Colonial Railways—in fact one of these railways runs through the reservation. Twenty-eight years ago these Indians, about 500 in number, were wholly pagan, and as degraded as almost any tribe of Indians we have yet seen upon this coast, although physically superior to some of them. Drunkenness, theft, licentiousness and cruelty reigned rampant amongst them. We have walked over their ancient battle grounds which had become the sepulchre of thousands, and where the surface of the earth was literally strewn with arrow-heads. In 1835 these cruel warriors and degraded pagans were converted to Christianity under the earnest labors of the late Rev. James Evans, Wesleyan Missionary, and brother of the Rev. Dr. Evans, of Victoria. Their vices were abandoned, and, under the fostering care of the Government, they were led on, step by step, to the advanced state of civilization they now occupy.

These Indians are now, as we have stated, living upon their reservation, which is, in extent, 41 miles long by 15 miles wide, situated upon the left bank of the beautiful St. Clair River. It is divided into farms, one for each family, and on each of which there is a considerable extent of land cleared, fenced and under cultivation. There is also on each a good log house, with chimney, door and window, and in some cases respectable furniture. The Indians cultivate the soil, finding a ready market for any surplus produce they may have. They have considerable live stock on their farms, and have earned a good deal of money by cutting cord-wood, which they convey to market with their own teams.

In all the different branches of husbandry and general industry they are making steady and satisfactory progress from year to year, while those who have given their attention to the finer arts have succeeded well. As an instance of this we may say that the first person who practiced the Daguerrian art in the town of Sarnia was the present head chief of the tribe, Mr. David Wawonash, in whose house you would find all the usual evidences of comfort and good taste, even to the melodeon, from which his charming wife, herself of Royal blood, discourses sweet music. On his table are to be found books, English and Ojibway, and, side by side, the Toronto Globe or London Times, and the Pelican, the latter an Ojibway newspaper published on the reservation for the use of the Indians. These people have a fine Church and Mission House, also a good house for the local Government agent; and every Sabbath their Church is thronged by an attentive congregation of well dressed Indians who listen with respectful and deep interest to the reading and expounding of the Scriptures in their own tongue; and as for their singing, it is superior in its execution to that of many white congregations. Adjoining the Church is the school house in which the young are taught in the elementary branches of an English education as well as in their own vernacular. A competent authority has recently stated in respect to these Indians that they "are by almost universal consent admitted to be the most orderly, quiet and religious portion of the population of that region of country. In agriculture, domestic economy and social habits we are happy to be able to report improvement." We may just remark in reference to the idea that these Indians must, as a matter of course, all die off if civilized that the above tribe is increasing in actual numbers at such a ratio as would double their entire number in 30 years. The vices of civilization destroy the Indians; but when they adopt our virtues and are sheltered from our vices they become healthy, happy and prosperous.

There are other tribes and other institutions

both in Canada and the neighboring States to which reference might be made with similar results had we time and space. Some of these tribes have made even greater progress in the different branches of industry, and amongst all of them schools are maintained, some in a high degree of efficiency. In addition to the common or local schools on the different reservations in Upper Canada there are several industrial schools where, in addition to receiving instruction in the ordinary branches of English education, the girls are taught all kinds of housework, while the boys are taught gardening, farming, and the various mechanical trades. Some of these youths have also pursued the higher branches of learning in the colleges of the country, where they have made such progress as to convince us that the color of the skin is no barrier to the expansion and culture of the intellect and their perfection in all that constitutes men good citizens and exemplary Christians. We could point to instances in which they have become successful school teachers, accomplished Ministers of the Gospel, skillful doctors, good practical mechanics and artists, who have competed successfully side by side with the Anglo-Saxon.

The state of things we have been describing was, we admit, brought about by earnest and persevering efforts on the part of the Missionary, the school teacher and the Government Agent. Large sums of money were placed to the credit of the Indians on account of lands ceded to Government, which monies have been expended in improving reservations, building houses; sustaining schools and supplying the Indians with articles of husbandry. But we are led to ask, have we not the same agencies to be employed on this coast? We certainly have. And we know not what language to use in urging upon our Government the important duty of beginning at once. The success which has already attended the labors of the few Missionaries who have devoted themselves to the praiseworthy task of benefiting the Indians of this Colony is such as to warrant us in believing that were the proper means put forth in a measure commensurate with the magnitude of the field the most satisfactory results would follow. To illustrate we need only allude to the Metlakatla Mission, established upon the seaboard of this Colony by that devoted man, Mr. Duncan, and which has already occupied considerable space in these columns, and the St. Mary's Mission, on the right bank of the Fraser some 40 miles above this city, so successfully founded by the equally devoted Rev. Pere Fonguet, containing, in embryo, all the elements of an industrial school upon a large scale, and which we hope to have the pleasure of noticing specially when it is more fully developed. We know no more inviting field of labor for the Christian Missionary and the philanthropist than that afforded by the native tribes of this coast.

A NOVEL IMPORTATION.—A very striking and highly amusing instance of the gross manner in which new comers are stuffed in Victoria regarding this Colony was afforded us on Wednesday last. A party of newly arrived Englishmen were observed to have amongst other traps several kegs of water. When interrogated by the Revenue officers as to the object of bringing water from Victoria they stated that they had been advised by the people of that town to bring a supply along as they could not obtain any fit to drink here! Really our Victoria friends must be in a desperate condition when they will resort to such measures to disparage this Colony in the estimation of immigrants. Whatever defects there may be about this country the lack of good water is assuredly not one of them.

FOR CARIBOO.—The Steamers Douglas and Hope went up on Wednesday with very full freights and a larger number of passengers than usual. We observed a company of 26 Welsh miners under a Mr. Evans, an experienced miner. Their present destination is Lightning Creek, but it is intended ultimately to turn their attention to quartz mining, which Mr. Evans thoroughly understands. This force is sent out by a Joint Stock Mining Company formed in London and Wales, and will shortly be augmented. We hope to hear of this company giving a good account of themselves.

QUICK DISPATCH.—The Str. *Gro. Douglas*, with a full freight, left this for Douglas on Wednesday at 4 1/2 o'clock, and returned at 5 1/2 on the following day, making the round trip in 25 hours. This is making excellent time. Capt. Moore was in command.

MORE TREASURE.—The Str. *Douglas* brought down DRY & NELSON'S EXPRESS in charge of Mr. Hughes on Wednesday last, containing \$8000 in treasure.

THE VICTORIA ESCORT were at Tenass Lake at latest accounts, where they lay over a day to take lessons in broad sword exercise from a son of the "Emerald Isle" who chanced to fall in with them. They had succeeded in travelling over the Douglas Portage (28 miles) in two days!

A CONFEDERATE DELILAH.—Mr. D. A. Mahony, formerly of Iowa, more recently an inmate of the old Capitol prison at Washington, has just published a graphic account of that prison and his fellow-prisoners in it. The most interesting of them is the famous Belle Boyd, daughter of a Presbyterian clergyman at Martinsburg, and sister of Mrs. Faulkner, whose husband was late a United States Minister to France. She is a young lady of about 19 years of age, of little body, and of pleasing though not beautiful countenance. To her "strategy" it seems, the success of Jackson's surprise of General Banks in the valley of the Shenandoah is entirely due. Belle conceived the idea of playing the part of

Delilah, and invited him, with the other Federal officers to a ball to come off in a few days. Meantime she secretly started off one night on a fleet horse to the camp of General Jackson, 60 miles distant, when she informed him of her plans and of the numbers of the Federal force. She rode back the same day—120 miles in 24 hours—and none knew she was absent. On the night of the ball Belle lavished her blandishments on General Banks especially. She had procured an elegant Scotch flag, with which she covered the person of the General, and by her familiarity made him oblivious to all else than the attentions of his fair entertainer. Meantime Jackson, with his "foot cavalry," made such rapid marches that he was enabled to pounce upon the camp of Banks, throw it into confusion and panic, and cause a speedy retreat to Harper's Ferry. The effect of that disaster upon the whole campaign in Virginia—paralyzing McDowell's army at Fredericksburg, and preventing its reinforcement of McClellan—is well known. Subsequently to this Miss Boyd proceeded to Washington, and, procuring a pass, crossed the potomac, and was detected in the act of making a drawing of the fortifications. She was arrested and imprisoned as a spy, and the first evening after Mahony's arrival he heard her sing "My Maryland" in an adjoining room. She sang at all hours, night or day, in defiance of the guard, who would often order her to be silent, to which her reply was "I shan't do it," and then she would repeat the line—"Huzzah she spurns the Northern scum!" and, suiting the action to the word, she would seize a broom and apply it to the part of the floor trodden by the guard. According to Mr. Mahony's account, this prison was a frightful den of filth, disease and torture. He says his own bed was two feet too short for him, and he is vehement in his denunciations of the War Department for confining a woman in such a place.

David Elginbrod's Morning Prayer.
"O Thou who holdest the waters in the hollow of a hand, and carriest the lambs of Thy own making in Thy bosom with the other herd, it would be altogether unworthy of Thee and of Thy Majesty of love, to require of us that which Thou knowest we cannot bring unto Thee until Thou enrich us with that same. Therefore, like Thine own barns, we bow down afore Thee, an' pray that Thou wouldst tak' Thy will of us, Thy holy an' perfect an' blessed will of us; for, O God, we are a' Thine ain. An' for our lassie, wha's oot among Thy trees, an' wha we dinna think forgets her Maker, though she may whiles forget her prayers, Lord, keep her a bonnie lassie in Thy sight, as white and clean in Thy een as she is fair and wholesome in oors; an' oh! we thank Thee, Father in Heaven, for gear' her to us. An' noo for a' oor wranglings an' ill-hindrings, for a' oor sins and trespasses o' mony sorts, dinna forget them, O God, til thou pites them a' right, an' clean syne exercise Thy mighty power e'en ower Thine ain Sel, an' clean forget them a' together; cast them ahint Thy back, whaur e'en thine ain een shall ne'er see them again, that we may walk hold and upright afore Thee for evermore, an' see the face o' Him wha was as muckle God in doing Thy bidding as gin he had been ordering a' thing himself. For his sake Amen!"

A Young Idea.—"Father, are there any boys in the parliament?" "No, my son; why do you ask that question?" "Because the papers said the members kicked Mr. Cary's Bill out of the House."

An Irish guide told Dr. James Johnson, who wished for a reason why Echo was always of the feminine gender that "maybe it was because she always had the last word."

CHURCH NOTICES.
PRESBYTERIAN CHURCH.—Divine Service in the Freeman's Hall on Sabbath at 11 a. m., and 6 1/2 p. m. Sabbath School in the Moore's Church, Mary-street, New Westminster, every Sabbath at 10 o'clock a. m., and 6 1/2 p. m. Sabbath School at 2 o'clock in the afternoon. THE DOCTOR FOR ALL HOLLOWAY'S PILLS.

CHEST COMPLAINTS.

No diseases are more frequent, few more dangerous, than affections of the respiratory organs. The first symptoms of catarrh, bronchitis, and influenza, may be radically removed by Holloway's renowned Pills. They quickly remedy any temporary stagnation of blood, relieve any overgrown veins, moderate the hurried breathing, and enable the lungs to do their office with ease and regularity. These Pills, by their purifying powers, cleanse the blood from all impurities, and fortify the system against consumption, asthma, and similar complaints.

STOMACH, LIVER, KIDNEY AND BOWELS.

From various causes these organs are frequently getting out of order, and require some suitable medicine to regulate them. Holloway's Pills effect this object with wonderful celerity and certainty. They do not distress the system, or weaken the frame; they thoroughly invigorate the digestive organs. They gently excite the stomach and liver, stimulate the kidneys to perform their functions efficiently, and act upon the bowels without griping or any other annoyance; again, taken an hour before dinner, they cannot be equalled as a "Dinner Pill," as they entirely prevent acidity, flatulency, nausea, and biliousness.

WINDY OR WATERY DROPSY.

Whoever is afflicted with these complaints, should at once have recourse to Holloway's Pills. They act most energetically on the glandular and absorbent system, purify the blood, and impart a vigorous action to the causes may have temporarily taken away. They excite the kidneys to increased activity, and thereby stimulate the absorbents to remove the fluid already collected.

DISORDERS PECULIAR TO WOMEN.

There is no medicine equal to Holloway's Pills for correcting the ailments incidental to females. They may be taken with safety for any irregularity of the system. As they remove all cause of maladies, and restore, by their grand purifying properties, females of all ages to robust health.

INFLUENZA, DYPHTHERIA AND SORE THROAT.

How all-important it is to check the first departure from health! It may be so by taking Holloway's Pills, without risk or restriction. In all diseases affecting the blood, nerves, and muscles, or in cases of fever, sore throat, colds, coughs, asthma, and shortness of breath, the earlier they are taken the better.

CHILDREN'S COMPLAINTS.

Diseases incidental to children, such as feverish attacks, scarlet fever, measles, and all diseases of the skin, may be immediately checked, and soon cured, by these purifying Pills, which may be reduced to a powder, and given in doses of one, two, or three nightly, according to the age of the sufferer. Holloway's Ointment is soothing, cooling, and healing, and is better adapted than any other remedy for all external ailments.

INDIGESTION, BILE AND RICK HEADACHES.

No organ in the human body is so liable to disorder as the liver, and none is more apt, when neglected, to become seriously diseased. When nausea, flatulency, or acidity on the stomach, warns us that digestion is not proceeding properly, Holloway's Pills regulate every function, give strength to every organ, speedily remove all causes of indigestion, bile and sick headaches, and effect a permanent cure.

LUMBAGO, RHEUMATISM AND GOUT.

In these diseases the blood is always in a highly inflammatory state; the stomach is also disordered, and the liver and kidneys unnaturally torpid. A few doses of these Pills, taken in time, will rectify all these symptoms by their cooling and purifying properties.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague	Female Irregularities	Retention of Urine
Asthma	Fever of all kinds	Scrofula, or King's Evil
Bilious Complaints	Head-ache	Sore Throat
Blotches on the skin	Indigestion	Stone and Gravel
Cough	Inflammation	Secondary Symptoms
Bowel Complaints	Jaundice	Tie Douloureux
Colic	Liver Complaints	Tumours
Constipation of the Bowels	Lumbago	Ulcers
Consumption	Dysentery	Venerical Affections
Debility	Erysipelas	Worms of all kinds
Dropsy		Weakness, from whatever cause, &c., &c.
Rheumatism		

Sold at the establishment of Professor HOLLOWAY, 244, Strand, (near Temple Bar) London: also by all respectable Druggists and Dealers in medicines throughout the civilized world, at the following prices:—1s. 12d., 2s. 6d., 4s. 6d., 11s., 23s., and 33s. each Box.

* * * There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

Poetry.

The Printer.

I wish I was a printer,
I really do indeed;
It seems to me that printers
Get everything they need.
(Except money.)

They get the largest and the best
Of everything that grows;
And get free into churches,
And other kind of shows.
(By giving an equivalent.)

The biggest bug will speak to them,
No matter how they dress;
A shabby coat is nothing,
If they own a printing press.
(Policy.)

At ladies' fairs they're almost hugged
By pretty girls, who know
That they will crack up everything
The ladies have to show.
(Glorious.)

And thus they get a "blow out" free!
At every party feed—
The reason is, because they write,
And other people read.
(That's so.)

THE RED RIVER COUNTRY.

GOLD ON THE SASKATCHEWAN.

The following is taken from the *Nor'-Wester*
of the 30th March:—

The gold and other news from the Saskat-
chewan, received by the last Northern packet,
is of the most important nature. One corre-
spondent says:—

"I advise the Red River hunters strongly to
come here and furnish the miners with provisions.
The Saskatchewan river is rich in gold, and the
North river is also rich. There are two or three
bars richer than others; but gold is found on
most every bar or point. Some will pay two
dollars, some four dollars, and some from six
to ten dollars per day per man."

"This news will be all the better when I add
that this is the finest farming country I ever saw.
The States and Canada cannot beat this. And
so much of it—there is room for thousands. As
to wood, there is plenty. I travelled up this
river for one hundred miles, and in the interior
far and wide, and everywhere wood was plen-
tiful. There is good clay for brick, coal is inex-
haustible, and tar, along Pembina river, on the
south side."

"There is gold in White Fish Lake. Atkin-
son says he can make an ounce per day with a
pan."

"There is also gold in Pembina river. I
found it in every point, but not so rich as at
White Fish Lake."

MR. JAMES ROSS

We beg to state for the information of all
whom it may concern, that Mr. James Ross has
relinquished his intention of going to England
at present. This determination has been made to
after consultation with the members of the com-
mittee under whose auspices the address was got
up last December, and the request made to him
that he should proceed to England as a delegate
to represent matters on behalf of the Red River
people. Circumstances have greatly changed
since that time, and with the altered state of
matters this course became desirable.

When the agitation was got up last fall all
was dullness and deadness. There seemed to be
the most perfect indifference in England regard-
ing this country, and our prospects appeared
very cheerless. Since then, one thing after an-
other has shown that the interests of this country
are fully occupying the attention of the Imperial
and the Canadian Governments. Both are act-
ing practically in the matter. Moreover, the
press in Canada and the old country is all alive
with discussions relative to this country. Add
to this that we have, at the request of our Cana-
dian well-wishers, actually appointed another
delegate—Mr. Sanford Fleming. Then, again,
British Columbia has sent home Hon. Malcolm
Cameron to press the overland route—a measure
fully as much one of this country as of our sister
colony on the other side of the mountains. Un-
der these and other circumstances, it might sav-
our too much of mere obstinacy to persist in go-
ing home, especially as the very changes which
we desired are coming on as rapidly as possible,
and Mr. Fleming, who has been well instructed
what to do, is on the scene of action, watching
and pressing our special interests.

Owe Dear!—"Owing to what do you adopt
such an extravagant style of dress sir?" asked
Paterfamilias of his fast first born. "Owing to
my tailor, my hatter, and my boot maker, old
man," was the reply of the dutiful one.

"Paddy," said a short-sighted wag, "why don't
you get your ears cropped? They are entirely
too long for a man." "And yours," replied Pat,
"ought to be lengthened: they are too short for an
ass."

A speaker at a stump meeting out West, de-
clared that he knew no east, no west, no north,
no south! "Then," said a bystander, "you ought
to go to school and learn geography."

"Do you understand me now?" thundered out
a country school master to an archin at whose
head he threw an inkstand. "I've got an inkling
of what you mean," said the boy.

An Irish miller, who had held some petty
military command, was observed one day coming
into town with a cart loaded with sacks of flour.
"Ho," cried a wag of the town, "there comes
Metel Saxe with the flower of Tipperary!"

IMPORTANT TO WILLIAMS

CREEK MINERS.

NOTICE IS HEREBY GIVEN that the undersigned
will be prepared to furnish LUMBER of all de-
scriptions suitable for Building, Plumbing, Sluicing,
Riffles, &c., on Williams Creek and Jack of Clubs Creek,
on or before the fifteenth of May, 1863, without delay,
as they are erecting a Water Power Mill, that will turn
out from ten to fifteen thousand feet of Lumber per day.
We hope by giving this timely notice that we may secure
the trade and greatly benefit those who may favor us
with their patronage, as we will be prepared to furnish
Lumber at greatly reduced prices, which all must ac-
knowledge will be of great benefit to the business, as
well as the Mining community, in a section of country
where Lumber has up to the present time been sold at
the enormous price of \$250.00 per thousand, owing en-
tirely to the article having to be whip-sawed and labor
commanding such high prices. With the use of this
Mill we hope to place all parties wanting Lumber in
possession of it immediately, thereby facilitating their
mining operations greatly, knowing as all do that busi-
ness as well as mining has been greatly retarded, for
not being able to procure Lumber when mostly needed.
And we hope with the aid of our Mill, together with the
Williams Creek Ditch, which will be completed in time
to furnish all with water in the Hill Claims and not in-
terfere with the Creek Claims, also, the surplus waters
of Jack of Clubs Creek and Ground Hog Lake turned
over the divide into Williams Creek, will enable
hundreds, if not thousands, who from the scarcity of
water, without the aid of the above named ditches could
not profitably do so, to work their Claims; also the great
and beneficial influence which must inevitably accrue to
all both Hill and Creek Claims, from the great and costly
bed-rock Flume, being at present partly constructed, for
the purpose of carrying off effectually the tailings that
must, with the advancement of mining on the whole
Creek and hills on both sides of the Creek, naturally
fill up and prove a great annoyance, owing to the scar-
city of water, there not being a sufficient quantity most
of the season running naturally in Williams Creek to
accomplish the great work; but with the assistance of
the surplus waters of Jack of Clubs and Ground Hog
Lake waters flowing into Williams Creek and the great
bed-rock Flume to carry everything through it, will not
only prove of incalculable benefit to all, but place Wil-
liams Creek beyond the rivalry of any other mining lo-
cality in the Cariboo country.

**EASE AND HEALTH TO THE SICK
HOLLOWAY'S OINTMENT.**

DISEASES OF THE SKIN.

Universal approbation has been awarded to this fam-
ous Ointment for its efficiency in removing disease of
the skin. For scrofula, scurvy, scald heads, and all
eruptions of the skin, both in infancy and mature years,
no remedy can be applied which so quickly cures as
Holloway's Ointment. In the nursery it should always
be at hand to ease the many skin affections to which
the majority of children are liable. In all heat and
tooth rashes, the Ointment is wonderfully cooling and
curative. To soldiers, sailors, miners, and travellers in
foreign lands, it is invaluable.

SORES, WOUNDS, BAD BRUISES, BAD LEGS.

In this class of maladies, an improvement in the ap-
pearance of the disease of the patient, follows the first
dressing with the Ointment.

It must not only be smeared on the wound, or sore,
but be briskly rubbed for some inches round about the
diseased swollen or painful parts. It will penetrate to
the blood vessels, nerves, and muscles, and even to the
bone, and will exercise the most wholesome, healing,
and purifying power over every tissue requisite for thor-
ough reparation. The effect of the Ointment is increas-
ed by fomenting with warm water before the Ointment
is rubbed in; but sores, when healing, should never be
cleaned with sponge or anything else, as the young
and new flesh which appears like a cream, would be
washed away.

BLOOD TO THE HEAD, APOPLEXY.

Nothing gives so much ease in these complaints from
which so many suffer, as Holloway's cooling and heal-
ing Ointment. When rubbed upon the spine it acts
most energetically in drawing surplus blood from the
brain; even to children in teething; this Ointment has
a miraculous effect in preventing fits and convulsions,
so often attendant on tooth-cutting. The Pills should
be used according to the directions.

RHEUMATISM, GOUT, STIFF JOINTS.

Every one suffering from these painful affections
should use this purifying Ointment, as it has rescued
thousands from a life of torture, after every other means
had been tried in vain. The Ointment should be well
rubbed into the skin at least twice a day, after it has
been properly fomented with warm salt water, and dried.
The inflammation soon yields, and the patient no longer
helpless, resumes his accustomed occupation.

GLANDULAR SWELLINGS, BRONCHITIS, HUMPS, SORE THROAT,
AND DIPHTHERIA.

To combat these diseases with success, a remedy is
required which will have the whole absorbent system
under its control. Such a remedy is Holloway's Oint-
ment, when rubbed on the skin; it penetrates to the
glands, and removes any obstruction or impurity which
may be impeding their healthy action. This Ointment
acts on the very mainspring of life, for through the
glands pass all new matter required for the body's re-
paration; in all the above class of cases, the Ointment
and Pills used conjointly will act so searching, and
certainly, as to effect cures in the most deplorable cases.

FISTULAS AND PILES.

All inflammations and ulcerations of sensitive parts
may be presently relieved, and ultimately cured, by the
diligent use of this cooling and healing Ointment, aided
twice daily by bathing the parts in cold water. Imme-
diate ease springs from this treatment; perseverance is
necessary to effect a permanent cure.

ASTHMA, SHORTNESS OF BREATH.

In these complaints the Ointment should be well rub-
bed twice a day upon the chest, and between the shoul-
ders; it will penetrate to the lungs, stimulate them to
renewed exertions, prevent stagnation of blood, mod-
erate the pulsations of the heart, regulate the current of
air through the bronchial tubes, and thus effect a perma-
nent cure.

Both the Ointment and Pills should be used in the following
cases:—

Bad Legs.	Chapped Hands.	Scalds.
Bad Breasts.	Contracted and	Sore Nipples.
Burns.	Stiff Joints.	Sore-throats.
Bunions.	Elephantiasis.	Skin-diseases.
Bite of Mosquitoes	Fistulas.	Scurvy.
and Sand-Flies.	Gout.	Sore-heads.
Coco-bay.	Glandular Swel-	Tumors.
Chicoboot.	lings.	Ulcers.
Corns (soft).	Lumbago.	Wounds.
Cancers.	Piles.	Yaws.
Chilblains.	Rheumatism.

CARIBOO

EVERY PERSON SHOULD KNOW

THAT THE

Shortest, Best and Cheapest

ROUTE

TO THE

CARIBOO MINES

IS VIA THE

YALE AND LYTTON

WAGON ROAD.

The chained distances on the Yale and Lytton Road are
as follows:

From Yale to Boston Bar, 28 Miles.
" Boston Bar to Lytton, 32 "
" Lytton to McLean's, 47 "
" McLean's to Junction of Wagon Road, 19 "

Distance from Yale to Junction, 124 "

COMPARE THE ABOVE

with the following distances set down by Lillooet
Shippers:

From Douglas to Lillooet, 110 Miles.
" Lillooet to Junction, 47 "

Dist. from Douglas to Junction, 157 "

THE JUNCTION

is the point at which the Wagon Roads intersect with
other, and where the Cariboo-bound traveller by the
Yale-Lytton and Douglas-Lillooet routes MUST meet.
It will, therefore, be seen by the above figures that the
traveller by YALE and LYTTON has

THIRTY-THREE MILES LESS TRAVEL

than if he went by the Douglas-Lillooet route.

Remember that on this Route there
are NO PORTAGES where Goods or An-
imals may be detained.

Messrs. DUBIG, LANE, BLACK, and other Carriers
of Merchandise, advertise to

Carry Freight from Yale to Lytton

\$20 per Ton Less

than is or will be charged on the Douglas-Lillooet route.

The New and Splendid Steamer

RELIANCE!

CONNECTS WITH THE VICTORIA STEAMER

ENTERPRISE,

and conveys her Freight and Passengers to Yale at
greatly reduced rates.

SHIPPERS

desirous of getting Freight through to Cariboo this
season are advised to

Shun the Douglas-Lillooet Route!

and are referred to the testimony adduced in the
CRANFORD CASE, wherein witnesses have stated upon
oath that **15, 20, or even 30 days** is a REASON-
ABLE TIME to convey Freight from Douglas to Lillooet.

*There is a considerable saving by taking the
larger sizes.

N.B.—Directions for the guidance of patients in
every disorder are affixed to each Pot.
